By signing above, I authorize 1st Gateway to amend the terms of your original agreement and extend the final loan payment beyond its original maturity for each month I skip. I also understand that I will be required to make the payment(s) skipped prior to my final loan payoff and that the interest will continue to accrue at the contract rate including the month I have chosen to skip. This payment deferral will result in an extension of the maturity date and will increase the APR and Finance Charges disclosed on the original promissory note. I am aware that by skipping payment(s) the benefit from disability/life insurance, GAP policies, and or payment protection may be reduced by the amount of the payment skipped.
